## Your 2025 Savings!

Agents saved  
≧ \$10,800 ≧

RAF works to protect the real estate industry and the livelihood of members.

### Protecting your earnings

- RAF works to **prevent** legislation that directly reduces income, such as proposed taxes on commissions and independent contractor withholding taxes.

### Influencing pro-real estate legislation

- RAF fights **for** policies that promote a robust real estate market such as protecting homeownership rights, increasing housing supply, and supporting tax reforms that encourage real estate investment.

### Supporting pro-real estate candidates

- RAF **supports** "Realtor Party" candidates based on their voting records and stance on property rights and homeownership, rather than their political party affiliation.
